

FOR IMMEDIATE RELEASE

Cadsoft Envisioneer Wins Best Drafting and Design Product for 2008

Guelph, ON, July 2, 2008— Cadsoft Corporation, the leading developer of home design software for the professional building design market, is proud to announce that Cadsoft Envisioneer has won the **Best Drafting and Design Product for 2008** from the Innovative Housing Technology Awards.

The Innovative Housing Technology Awards (IHTAs) recognize significant advances and best practices by product manufacturers, integrators and builders in home technologies and IT solutions for the housing industry.

The IHTAs are presented by *TechHome Builder* magazine. The awards are intended to stimulate the development of innovative new products, materials, and systems for residential construction that can improve the livability of our homes and make the process of building and improving homes more efficient and cost effective.

"We are honoured to have received the award for *Best Drafting and Design Product for 2008*," says Brad Finck, VP of Business Development. "I'm ecstatic that the industry recognizes and appreciates Cadsoft's easy-to-use design environment, unsurpassed power and performance, and our unique advancements in Building Information Modeling (BIM)."

The winners of the 2008 Innovative Housing Technology Awards were announced at a reception on Wednesday, June 25 at the InterContinental San Francisco Hotel during PCBC 2008. With a previous win in 2005, this is the second time that Envisioneer has won this award.
